

# *Social Connection Group*

*for Primary School Students*

## **Holiday Program**

Word By Mouth's **Social Connection Programs** are specifically designed to assist **children** to communicate more effectively and confidently with their peers.

The specific aims of this program are:

- To promote **social awareness and emotional wellbeing**;
- To provide opportunities for **positive relations with peers**;
- To empower them to **build connections** in a supportive, non-threatening group environment;
- To develop the skills for **self-advocacy**, to support opportunities for community participation and learning.

We believe in affirming practices and creating a supportive and inclusive environment where all members can thrive. Participants will be placed in groups with similar aged peers, to encourage confidence and participation.

Our speech pathologists are experts in social communication and will provide individualised support to help each group member reach their full potential.

Small groups  
(maximum of 5)

1.5 hour sessions  
conducted over 4  
consecutive days

Cost: \$880
