

Written Language Skills

WRITTEN LANGUAGE WORKSHOP FOR PRIMARY STUDENTS

School Holiday Program

CLINIC BASED GROUP

Word By Mouth's Written Expression Group

- Designed for primary school students.
- Will focus on types of sentences, how to write complete sentences and how to improve sentence writing by adding joining words and more complex vocabulary.
- Will implement an explicit, systematic teaching approach that is also motivating and fun.

Strong skills in written writing are foundational for academic writing in the later years of school. The underlying skills essential for writing success will be addressed and reinforced throughout the week.

The intervention approaches for this group are informed by the latest evidence in the research literature. For more information about effective writing instruction for students see the Literacy Teaching Toolkit, Effective Writing Instruction (Victorian Department of Education & Training, 2019), The Writing Revolution (Hochman & Wexler, 2017).

Targeting sentence and
paragraph writing
