

WORD BY MOUTH'S

SPEECH, LANGUAGE & EARLY LITERACY SCREENING FOR PRESCHOOL AND EARLY PRIMARY STUDENTS (up to Grade 3)

IS YOUR CHILD IN THEIR FINAL YEAR OF KINDERGARTEN OR IN EARLY YEARS OF PRIMARY SCHOOL?

- Our screening program provides a quick measure of the foundation speech, language and early literacy skills.
- Students who start schooling with strong oral language and early literacy skills are better placed for long term academic success.
- Early screening provides parents and teachers with useful information about a child's language comprehension, expression of language, speech and skills for reading and written expression.

SCREENER SUMMARY

A checklist summary of your child's results and recommendation will be provided following the screening session.

LENGTH

30 – 45 minutes

(including analysis and summary – allow 5 business days for summary)
